

# Product data sheet

## Gold-plated loudspeaker terminal

### Reference number

LPK 63 SW

### Gold-plated loudspeaker terminal

for professional connection of high quality loudspeaker systems.

Cable sockets (6 mm and 8 mm fork) or crimped cables (6 mm<sup>2</sup>) are connected with a patented clamping nut system. The pole terminal body is manufactured in one piece to obtain the least resistance.

For installation in "cover for 2 loudspeaker sockets" (ref.-no. .. 562 .., .. 962 ..) in combination with mounting plate ref.-no.: 63 WBT.

### Technical data

Internal connection: soldering or crimped connection (crimped ferrule, screw contact)

Transition resistance:  $\leq 0.1 \text{ m}\Omega$  clamp connection  
 $\leq 0.15 \text{ m}\Omega$  banana plug 4 mm

Material: 24 carat gold-plated copper

### Version:

black identification
