RME 4 I KNX

Article number: 4930215

Description

- 4-way C load switching actuator MIX2
- With current recognition
- For higher lamp loads
- Extension module MIX2
- For upgrading to maximum of 12 channels
- Up to two extension modules MIX or MIX2 can be connected to one basic module
- Device and KNX bus module can be swapped independently of each other
- Removable KNX bus module enables devices to be changed without reprogramming
- Manual set-up and use of switching actuators is possible without KNX bus module
- LED switching status display for each channel
- Manual operation on device (even without bus connection)
  - Adjustable characteristics: e.g. switching, delayed switching, pulse function
  - Links, type of contact (NC contact/NO contact) and participation in central commands such as continuous On, continuous Off, central switching and save/call up scene
- Switching functions: On/Off, pulse, On/Off delay, staircase light with warning
- Logical links: e.g. lock, AND, release, OR
